

SKYWIRE

THE WORLD'S FIRST UNIVERSAL
UAV TETHERING SYSTEM
POWERED FROM A VEHICLE

Truly mobile drone power allowing forward
observations to take place over hours rather than
minutes

INCREASE TACTICAL AWARENESS - GATHER DATA SECURELY

Ground Station

Power Supply: 110 volts/240 volts/12 volts (Civ)/24 volts (Milspec)
Connectors: Nato (MilSpec Version), C16 (Civilian)

Tether

Weight: 10g/metre
Data Feed: Fibre Optic to BNC/HDMI/Ethernet
Length: Variable up to 200m (as required)
Tensile Strength >219lbs/98kg
Temperature Range -60 degrees C to +85 degrees C

Aerial Power Supply

Battery Back-Up 4 mins (approx) for landing

Variable Power Supply

Lightweight Tether

Simple Operation

Safe - Low Amps/Low Current

Battery Back-Up

**MILSPEC VERSION
AVAILABLE**

**Ground station fits in a
.50cal ammunition tin
for the ultimate in
portability**

Introducing the **SKYWIRE** From Drone Evolution

NEW

The SkyWire from Drone Evolution is a revolutionary new tethering system for rotary drones.

Using the SkyWire, any rotary drone can be powered from the ground so that it can stay in the air for hours at a time.

The SkyWire is the first tethering system that can be powered from a vehicle, giving it huge versatility and portability.

Universal - Tether any drone

Power from a vehicle/mains

Secure data feed

Simple operation

Milspec version available

Safe - low amps/low current

MilSpec version fits in an ammunition tin
